SUMMARY

Technical Project Manager with a Master of Science in Project Management from Northeastern University and 5+ years of hands-on experience in enterprise cloud support, application lifecycle management, and Agile delivery. Proven ability to lead cross-functional projects end-to-end, from stakeholder requirements through execution and delivery, using Jira, Confluence, Salesforce, and CRM platforms across banking and enterprise software environments. Recognized performer with a track record of workplace awards, SLA improvement, and Level 3 technical escalation ownership, combined with direct project leadership on a data-driven fundraising system and a website design and promotion initiative. Seeking to bring a blend of technical fluency, PM methodology, and delivery discipline to a Technical Project Manager role.

EXPERIENCE

Technical Cloud Support Analyst | Foundever — Client: Hyland Software (OnBase) — 2022 – Dec 2024

- Owned Level 3 technical support and account health for enterprise OnBase cloud customers, managing application lifecycle activities from deployment and configuration through upgrades and incident resolution.
- Recognized as Best Employee of the Month twice in consecutive months for performance in a high-stakes technical support environment.
- Improved SLA compliance by 18% by embedding Agile escalation tracking into daily support workflows.
- Partnered with cross-functional engineering and support teams to streamline handoffs, reducing friction in complex, multi-team incident resolution.
- Built standardized incident documentation that became a reference point for resolution continuity across the account team.

Senior Customer Support Executive | Foundever — Client: Bell Canada — 2021 – 2022

- Won the Certified People's Success award three consecutive bi-monthly cycles, evaluated on CSAT, resolution time, inside sales, and customer retention.
- Managed the full customer relationship for VoIP and broadband accounts, resolving technical issues while maintaining 95% customer satisfaction.
- Mentored 10+ new hires through onboarding and subject-matter guidance, reducing average handling time by 40% team-wide.
- Led sprint-based process improvements that cut ticket resolution time by 20%, applying Agile principles to a high-volume support environment.

Fraud Analyst | Allsec Technologies Limited — 2020 – 2021

- Investigated U.S. credit card fraud patterns by analyzing transaction data against detection rules to identify risk trends.
- Optimized fraud review workflows to improve investigative efficiency and reduce case turnaround time.

Intern, Nuclear Reactor Pipeline Construction | BHEL — Kudankulam Nuclear Power Plant — Mid 2019 – 2020

- Supported pipeline construction and quality checks for nuclear reactor systems, gaining early exposure to process discipline and documentation standards in a safety-critical industrial environment.

KEY PROJECTS

Automated Fundraising Intelligence & Donor Management System | Salem Academy Charter School — Capstone, Project Lead — 2026

- Led a 5-person team as Project Lead to deliver a fundraising strategy and donor management toolkit built on real multi-year giving data, including an Integrated Project Plan, risk register, and EVM schedule.
- Delivered a multi-sheet donor workbook with campaign tracking and KPI dashboards, coordinating requirements, technical development, and QA while serving as primary sponsor liaison.

Website Design & Promotion | QueensKnow.com — Project Lead — 2025 – 2026

- Led end-to-end website design and build from scratch as Project Lead, defining scope and schedule and managing stakeholder feedback to deliver the site and its post-launch promotion strategy on time.

Drone Design & Build | St Joseph's Institute of Technology — College-Funded Project — 2015 – 2019

- Designed and built a carbon-fiber-body drone under a \$1,500 college-funded budget, engineering a PyBoard-based flight control system with custom electronics ahead of comparable commercial drones at the time.

EDUCATION

Master of Science, Project Management — Northeastern University, College of Professional Studies Jan 2025 – Jun 2026

Bachelor of Engineering, Mechanical Engineering — St Joseph's Institute of Technology 2015 – 2019

SKILLS

Project Management (Agile, Scrum, Waterfall) • Jira • Confluence • Salesforce • SQL • Excel (VLOOKUP, Pivot Tables, Advanced Formulas) • CRM Systems (incl. Nexus banking CRM) • Application Lifecycle Management • Level 3 Technical Support • Incident & SLA Management • Technical Documentation • Stakeholder Communication • Escalation Management • Process Improvement • Risk & Schedule Management • Cross-Functional Collaboration • Change Management
